

Therelee D. Washington II

FOUNDER · TECHNOLOGY LEADER · EDUCATOR · AUTHOR · SPEAKER

Building what moves people forward.

Professional Biography

Therelee D. Washington II is a technology entrepreneur, educator, workforce-development leader, author, and speaker with more than 20 years of experience in technology consulting and organizational leadership.

He is the Founder and Chief Executive Officer of AgiliShare Solutions Group, LLC, where he helps organizations align artificial intelligence, Microsoft Cloud technologies, technology strategy, and operational transformation with measurable business outcomes. He is also the Founder and Principal of Texas Premier Technology Institute, Inc., a nonprofit career school he established to expand access to practical technology education, industry-recognized credentials, career readiness, and economic opportunity.

Washington is the author of *The Human Future in an Age of Dominant AI: A Practical Roadmap for Careers, Employers, and Public Leadership*. In the paper, he introduces Responsible Acceleration - a framework for advancing AI innovation while protecting human dignity, preparing workers for changing careers, and encouraging responsible leadership from employers and public institutions.

His work is grounded in his Christian faith and his lived experience as a father, entrepreneur, educator, employer, and institution builder. Washington and Alicia Nicole Smith-Jones founded the Jazmin C. Washington Fine Arts and Technology Scholarship in memory of their late daughter, Jazmin Chereese Washington. What began as an effort to provide laptop computers through churches and community organizations has grown to include full-tuition scholarships for students attending Texas Premier Technology Institute.

Washington speaks to corporate, educational, faith-based, nonprofit, and community audiences on AI and the future of work; leadership, purpose, and resilience; faith and adversity; and education, opportunity, and community impact. Across each area of his work, his mission remains consistent: building what moves people forward.
